And What Have You

By BOB CRAIG

Most people seem to say that they enjoyed their vacations but are glad to be back home, but in all honesty I find that I wasn't all that glad to get back to work again.

While you might not be really interested in our vacation trip I need to fill this space with something and after being gone for nearly two weeks I cannot find much locally to write about.

The wife, our youngest son Rick and I loaded up our pickup camper and boat and left here the Fourth. We spent that night at Weatherford in a KOA campground and then went on to Arlington where our daughter Beth lives. Rick and I went out to see the Rangers play on Thursday and are now among the few people who have seen them win a game.

Beth joined us when she got off work at noon Friday and we headed out for Arkansas. We spent the night at Texarkana and arrived at the Crater of Diamonds State Park the day after a woman had found a \$2500 diamond there. Since the place was just one big mud hole following some heavy rain our family passed up the opportunity to add to the family fortune. But there were a great many people wading in the mud looking for a diamond.

We drove on the Hot Springs and spent two nights in the KOA campground there. On Sunday afternoon a friend took us on a tour of the city and the area lakes. A person could easily spend a week in the Hot Springs area.

On Monday we headed north out of Hot Springs on State Highway 7 which is rated as one of the 10 most scenic routes in the nation and I don't believe it is overrated. We stopped at Lake Dardanelle near Russellville long enough to see a tug boat go through the lock on the Arkansas River. It is hard to imagine barge traffic going from the Mississippi River to Tulsa, Okla.

From Russellville we went on north to Harrison where we spent the night in a Safari Campground and visited Dogpatch, U.S.A. on Tuesday. If we had a disappointment on our trip it would have been this amusement center. After Six Flags, Dogpatch doesn't have very much to offer.

After towing our boat over half of Texas and half of Arkansas we decided it was time we headed for a lake. We had originally planned to go to Beaver Lake in Arkansas but the campground on Table Rock Lake in Missouri appeared more appealing.

If you own a camper, trailer or motorhome and are ever up in that area I can strongly recommend the Safari Campground on Table Rock. The hosts are the most gracious people you will find anywhere and the facilities are excellent. Their camp is

SIGN UP UNDERWAY — Tommy Brown of Hamlin is one of the first to sign up for the bollweevil control program now underway in Jones County. HIRES 3 TEACHERS—

School Board Adopts Budget, Buys Boiler

Meeting in their regular monthly session here Monday evening the Trustees of the Hamlin Independent School District accepted the low bid for a new boiler for the Junior High School building, adopted a budget for the coming year and hired three teachers.

The board accepted the low bid of Abco Industries of Abilene of \$8,240.00 for a Scotch Marine Boiler to replace the present boiler in the building that was installed in 1929. The present boiler has been judged beyond repair.

The board set a hearing on the adopted budget for Aug. 13 that shows revenues of \$657,049.00 and expenditures of \$668,924.50. The difference between revenue and expenditures will be made up from a reserve fund carried over from the current year. The budget does not include any Federal Revenue that may be available to the school.

The expenditures are up from \$667,106.50 to \$668,924.50 from last year and the income is down from \$668,357.00 to \$657,049.00. The loss in revenue is primarily from the loss of two class room teachers from state funds.

Of the available revenue, \$357,747.50 will come from local funds and \$312,129.00 will come from state funds.

With the exception of a C.V.A.E. instructor to replace Ronald Ferguson who resigned this spring, the board completed the school system's staff for the coming fall term with the hiring of three instructors Monday evening.

The board hired Mrs. Kay Maggiori to teach third grade and high school Spanish, Jerry Bodine to teach high school math, and Stephen Cochran to head up the new High School Distributive Education program.

In other action, the board gave final approval to a revised and updated set of general policies for the school and

adjusted the free lunch schedule to meet new federal regulations.

An outside consultant has been working on the new set of policies for the school since early spring and final approval was given by the board at this meeting. Supt. Bob Hawes said that very little change was made in the policies but that they have been put in a more usable form.

To meet new requirements, the board adopted a new free meal eligibility income scale that a family of one with an income of \$2740 would not be eligible and a family of four with an income of \$5310 would also be eligible. A family of 12 could make as much as \$10,880 a year and still be eligible for free lunches under the program. A complete scale of income requirements is available in the superintendent's office.

John Holtz Elected VP

John Holtz of City Food Market was elected first vice president of the Independent Grocers Association at the Sunday afternoon meeting of stockholders and directors at the IGA warehouse in Abilene.

Holtz served the past year as second vice president on the board.

After the business meeting and election of officers a catered barbecue was served. Mrs. Holtz attended with her husband.

Signup Underway For Spray Program

Sign-up for the Jones County Fall Bollweevil Diapause spray control Program started at 8 a.m. on Monday of this week and will continue through July 31, according to Stuart Propst, president of The Jones County Bollweevil Association. The Bollweevil Association office is located at 1010 North Commercial—just one block North of The County Court House in Anson in the Old PCA office building.

Peggy Propst and Nell Williams have been employed as office workers during the sign-up period and will be available to assist farmers in locating their farms on the map.

County Agent, Kirby Clayton said here this week that a minimum sign-up of 35-40,000 acres is expected this year with the Texas Department of Agriculture paying one half and the cooperating farmer paying the other half.

The Fall Diapause spray program is designed to kill bollweevils in the Fall before they go into overwintering quarters, thus preventing a build-up in cotton fields next spring. The program calls for three or four aerial applications of 16 ounces of low volume Malathion per acre on a 10 to 14 day interval.

Farmers are urged to go by the bollweevil office located at 1010 North Commercial in Anson and leave a check for their acreage, July 31, 1973 has been set as the last date for

sign-up. Farmers may leave a check post-dated September 1, 1973 and the check will be held in the office until that date.

This program is of vital importance to the future of cotton producers in Jones County.

This program is of vital importance to the future of cotton producers in Jones County and all cotton farmers are urged to cooperate. Last year's records showed an 80

percent reduction of weevils in the treated fields over the non-treated fields at the end of the spraying program.

Membership dues are \$10.00 per person and is open to everyone.

Farmers wanting further information on the Fall Diapause Control Program should contact the bollweevil office of the County Agricultural Agent.

Watson Egg Farm Closes At McCauley

The Watson Egg Farm of McCauley, in operation since 1956, will cease to exist as soon as 1800 laying hens can be sold, according to Troy W. Watson, co-owner.

Watson was in Hamlin Tuesday advertising the sale of the laying hens. He started selling out his flock of 3000 last week.

He said that the high price of feed and the price freeze were contributing factors in the decision to close the farm.

He will continue to live at McCauley where he also has farming interests.

The egg farm was started in 1956 by his father, O. D. Watson. Following his father's death, he and his sister and brother-in-law, Mr. and Mrs. Frank Pippin, bought the farm from their mother. Their mother, Mrs. Ted Bigham, now lives in Bradshaw.

Watson said that they had 6000 hens when they began operation. The Watson egg farm is the last one in Fisher County.

round of finals here Friday evening at 8 p.m. The Rotan and Merkel players will meet in a consolation match Friday at 5:30. Workmen are busy in the first two pictures above trying to dry out the local playing field Tuesday evening following a rain that threatened to cause the game to be postponed. George Campbell pours gasoline on

the pitching mound in the picture at left as James Cork and Frank Shearer go over the last minute details of the night's contest. In the middle picture, Eugene Alexander, right, is assisted by a Merkel fan as they try to dry out the pitching mound. In the picture at right, Hamlin All-Star player Gayland Collins gets the first hit for Hamlin.

And What Have You
—Continued from page one

a 40 acre wooded site on beautiful Table Rock Lake with swimming pool, recreation room, miniature golf course and the coffee pot is always on.

We spent four days up there and the highlight of the whole trip was a visit to Silver Dollar City. After Dogpatch we were a little hesitant about going to Silver Dollar City but it turned out to be one of the most fascinating places I have ever been. I couldn't recommend it too much to people with small children but for adults and older children it is a must.

All of the old crafts of the Ozarks of the 1880's are being preserved at this park. You can watch craftsmen make sand castings in the blacksmith and foundry shop, watch potters work, see a log cabin being built as it was done over 100 years ago. They have a wagon shop actually making wagons, a candle shop, a candy shop, a grist

mill. You can watch while they make lye soap, blow glass, spin yarn, weave, make cedar shingles and many more of the old crafts.

We spent nearly two days out there and would have liked to have had time to go back again the next day.

One thing that seemed rather strange about Missouri was that there were very few tourists from Texas there. There were a great many in Arkansas but when you crossed the state line into Missouri you seem to have left them all behind. On the huge parking lot at Silver Dollar City we only saw about two cars from Texas.

As far as the gasoline situation, we never had any trouble but then we have three tanks on our truck and could be selective about where we bought our gas. We saw a few signs limiting the sale of gas and some stations closed, but we were never limited. It was strange the way the price of gas varied from town to town. You might go through one town where regular was 35.9 and the next town it would be 38.9.

I guess the only real regret about our vacation was that our older son Darrell was in school and could not go with us.

Cotton growers

LET'S ALL WORK TOGETHER . . .

The Jones County Bollweevil Association
Anson, Texas 79501

Jones County Cotton Producers have the opportunity to help themselves with matching funds available from the Texas Department of Agriculture to increase cotton production by signing up for the fall Cotton Bollweevil Diapause Control Program.

Beginning Monday, July 16, 1973 The Jones County Bollweevil Office opened to assist farmers in the sign-up program. The fall Diapause Spray Program is designed to kill bollweevils before they leave the cotton fields in the Fall and thus keep them from going into overwintering quarters. The program calls for 3-4 aerial applications, 10-14 days apart with 16 ounces of low volume malathion per acre starting about September 1, 1973. Cost of the application will be shared equally by The Texas Department of Agriculture and The Cooperating farmer.

Farmers are asked to check by The Bollweevil Office in Anson and leave a postdated check made out to The Jones County Bollweevil Association.

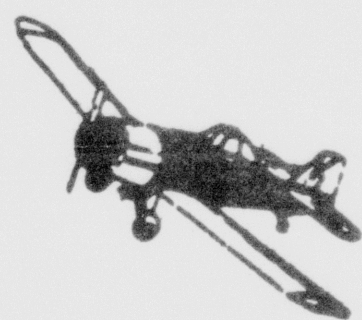

This July 31, 1973, will be the last day to sign up for the Fall Diapause Spray Control Program.

This program is of great importance to producers, landlords and to the overall economy of Jones County.

Sincerely,

Stuart Propst, President
Herman Reeves — Secretary
Jones County Bollweevil Association.

SHORT WAVES

BY FRANK SHEARER

Whoever said "talk is cheap" never listened to a kid tell what he wants for his birthday.

We only believe half of what we hear, but it's usually the wrong half.

Teenage girl to another at the telephone: "If a girl answers, don't hang up — his voice is changing."

Make goodness illegal, and there will be a population explosion of angels.

The difference between back-talk and rebuttal is about 15 years.
